【参加生徒の感想】

I learned a lot of things about school life in the Philippines. Also, I was very surprised that many children couldn't go to school and work. I think that it is a bad situation for children. So I hope the government of the Philippines support more. For instance, the government gives some money to children, or tells the importance of education. I want to learn about Philippines in order to think of the way to solve the situations. (3年)

I was so surprised to hear that there was a lot of labor children. Even if it is illegal, many children need to work for their families. I thought I should appreciate that I can go to school every day. Also in order to help them, I want to do something in the future.
